

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the present application:

Listing of Claims:

Claims 1-18 (cancelled).

Claim 19 (New): An antenna system for a wireless communication device comprising:

a first antenna circuit;

a second antenna circuit;

a processor coupled to the first antenna circuit and to the second antenna circuit,

the processor configured to:

operate the first antenna circuit to receive a first communication signal

employing a first communication system mode;

monitor a second communication signal via the second antenna circuit,
the second communication signal employing a second communication system mode
different from the first communication system mode;

hand off communication of the wireless communication device to the
second communication system mode based on the first communication signal and the
second communication signal.

Claim 20 (New): The antenna system of claim 19 wherein after the hand off, the
processor operates the first antenna circuit to receive communication signals employing
the second communication system mode.
